

I am a 5 year veteran Flight Attendant for ATA Airlines. I want to KEEP THE BAN ON CELL PHONE USAGE as it is. What about safety?? If someone is gabbing on the phone, the plane crashes, how are they to know what to do incase on an emergency?? Or if a mask drops?? We may need that person to assist us! They won't be any help passed out now would they?! Think about the terrorist that tells his buddies that the plane's taking off...and where it's at in flight route! More planes can be shot down, or blown out of the sky! IT WOULD BE A HUGE MISTAKE!!
